

Design-to-delivery custom apparel & accessories

RLP is proud to have partnered with a leading custom apparel manufacturer to handle design & manufacturing for our custom apparel programs.

Exclusively curated and mindfully sourced 100% custom apparel and accessories. This line is used by some of the world's most successful brands and largest organizations. Our manufacturer-partner is renowned for in-depth brand exploration, client-specific trend analysis and reporting, and constant innovation toward sustainable solutions.

1. In-Stock Products

A large, diverse, and stylish line of high quality uniform and career apparel.

3. Templated Custom

Specifically designed programs stressing speed and potentially lower MOQs.

2. Domestic Decoration

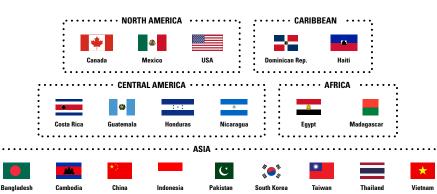

Embellishment, custom sewing, and personalization done in the USA.

4. Exclusive Custom

100% made-to-order design and engineering; full uniform program merchandising services.

Global Sourcing Network

Our manufacturer utilizes a carefully selected network of partners for sourcing the raw materials for garment production. This allows us to employ the unique specializations, benefits, and expertise found in 20 countries on three continents.

Custom Design

No compromise

It means having control over the process every step of the way, from design to delivery. We work with you to achieve your apparel goals, no matter how elaborate or specific.

Send us your Apparel Ideas, We'll Take Care of the Rest

As soon as we get the basic information about your project our exceptional custom apparel designers roll up their sleeves and get to work.

We welcome any and all information that can help us to better understand the overall design and branding mission: web links, demographic insights, secondary art files, mission statement; all will be put to good use if available.

COLOR

Get fabrics dyed to an exact Pantone color match Receive lab dips to approve the color before production begins.

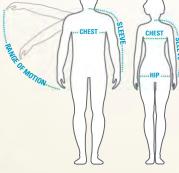

BRANDING

Incorporated at the first step of the design process and applied in ways that simply cannot be achieved with off-the-shelf apparel.

How do you want these pieces to fit your team? We can create custom sizing sets to suit your specific needs.

STYLE

Unique and creative branded apparel designs based on the latest clothing trends at retail.

Unlimited Possibilities

Minimum Order Quantities

Typical orders require a minimum order of 500 units

LEAD TIMES

Design to bulk production delivery is commonly about 120 days

Every project is unique. There are multiple factors which can alter timing such as but certainly not limited to; quantity, fabrications, factory partners, current world events, etc.

1. The Design Process

• 7 – 10 days: Apparel concepts and revisions

2. Prototype Sampling

- 4 5 weeks: Available fabric color
- 6 7 weeks: Custom fabric color with lab dips for approval

3. Bulk Production

- 9 14 weeks: Knit fabrics
- 10 16 weeks: Woven fabrics

4. Shipping & Delivery

- 5 6 weeks: Ocean cargo to a West Coast port, ground transport to final destination
- 7 10 days: Air freight (with surcharge) to your door

Sustainable Fabrication & Socially Responsible Production

Our manufacturer partner is a leader in the constant pursuit of the highest ethical certification and sustainable fabrication and manufacturing practices.

Through creative distributor partners they design and source for the world's largest companies and organizations, as such they have had a mandate for over 20 years to create a network of factory partners that have exemplary records in social responsibility. Their many certifications speak to our success in this regard, but we will never stop the process to improve even more.

Our custom apparel is presented with the latest innovations in sustainability, empowering you to make a variety of choices which can substantially reduce the negative impact on the environment, while at the same time making no sacrifices with quality, performance or styling.

3rd Party Audits & Certification

These organizations certify our partner mills and factories to the highest levels of environmental and social practices

OEKO-TEX®

A trusted group that certifies products are free from harmful chemicals, responsibly sourced, and produced using fair practices and safe working conditions.

to promote and sustain fair labor practices, safe working conditions, and environmental responsibility.

GREEN OPTIONS

Why use virgin plastic for single-use poly bags when a recycled option can help reduce the environmental impact?

Consider poly bags made from recycled plastic or biodegradable starches.

RECYCLED POLYESTER, REGENERATED COTTON, AND CELLULOSE FIBER

Look out for the Made with Recycled Bottles, Made with Regenerated Cotton, and Made with Cellulose Fiber icons to highlight these environmentally conscious fabric options for your next project.

Recycled polyester with 3rd-party certification for chemical restrictions. and social and environmental practices.

A recycled polyester made from reclaimed plastic bottles to help us reduce our impact on the planet.

Regenerated cotton saves water in the production of new crops, reduces waste, and use of chemicals in the environment.

TENCEL™ and Viscose are soft and breathable biodegradable fabrics made with cellulose fibres from wood.

Biomass fibers are obtained from various types of plant biomass such as hemp stems, flax, and plant waste matter.

Vegan leather can be made from recycled plastic or innovative and sustainable materials such as cork, cactus, and pineapple leaves.

SUSTAINABLE FABRIC INNOVATION

ZERØ yarn is just one of the latest sustainable fabric innovations to come out of the lab. It's a soft and durable blend of regenerated cotton and recycled polyester that's perfect for core tees. And what's more, it's actually more cost-effective than traditional virgin fabric.

ZERØ YARN

60% Regenerated Cotton 40% Recycled Polyester
