MATERNITY PANT

MATERNITY PANEL:

FABRIC: 8.3 oz. Stretch Knit

BLEND: 65% Rayon, 29% Nylon, 6% Spandex

CARE: Home Wash

COLOR: Black Only

CLOSURE: 1/2" Comfort Elastic all around waist

- Panel is a two piece design that replaces front and back sections of the woven pant
- Two piece construction brings stretch and ease to the back, as there is no woven constructed waistband causing discomfort
- Front panel is longer, so it covers the belly and has enough fabric to expand as the pregnancy moves to full term
- Softer, 1/2" comfort elastic won't constrict or bind
- Heavier, softer, 4-way stretch fabric is comfortable and secure on the body while remaining breathable

TRIMS

These pages provide images of our trim selection by style and color. Information included with each section will guide you as to the potential uses and wash options.

SOUTACHE

Our soutache braid is 100% Polyester and can be used on many different garments. It can be used instead of piping without needing to break open a seam or can be used as an accent to work with a fabric overlay.

Suggested Placements:

Add to the edge of an overlay or stripe on the collar and/or cuff, or to the edge of a collar/front instead of piping.

KNIT TRIM

Our knit trim is 100% Polyester and can be washed in a light soil industrial environment. Because it is a knit, it is more flexible and can maneuver around corners on collars and cuffs. Garments customized with knit trim can be industrial laundered, home washed or dry cleaned.

Suggested Placements:

Cuffs, collars and/or fronts of culinary items or aprons, or other industrial launderable service apparel items, such as lab coats or counter coats.

FABRIC OVERLAYS & BIAS TRIMS

Color swatches below represent many of the fabrics used for customization overlays and bias trims. Overlays and bias trims should match the fabric content of the garment being customized when possible.

1" STRIPES

The stripes shown here are straight cut and 1" in width. They are 100% Polyester with a fused backing in order to maintain their shape and eliminate shrinkage.

These stripes can also be used for embroidering a name. This application is home wash and industrial laundry friendly and provides an alternative to name embroidery on an emblem.

Suggested Placements:

Any pant or short side seam. As a name strip for embroidery purposes, placement is usually left or right upper front.

EMBLEMS

American Flag with right star field and Gold Trim 3" x 1 7/8"

American Flag with left star field and Gold Trim 3 1/2" x 2"

The US Department of Defense has this to say regarding the proper placement of the American Flag on uniforms.

“The regulation states that when authorized for application to the proper uniform the American flag patch is to be worn, right or left shoulder, so that “the star field faces forward, or to the flag’s own right. When worn in this manner, the flag is facing to the observers right, and gives the effect of the flag flying in the breeze as the wearer moves forward. The appropriate replica for the right sleeve is identified as the “reverse side flag”.

AMERICAN FLAG EMBLEMS

Border	Star Field	Size
White	Left	1 3/4" x 1"
White	Left	3 1/2" x 2"
Gold	Left	3 1/2" x 2"
Gold	Left	4" x 2 1/2"
White	Right	3 1/2" x 2"
Gold	Right	3" x 1 7/8"

EPAULETS

Epaulets and pocket flaps can quickly turn a generic garment into one that speaks directly to a specific job function. Whether using contrasting color combinations or matching trims these shirts can dress employees from security to parking attendants, bellmen and doormen.

REFLECTIVE STRIPING

REFLECTIVE TRIM

There are several color options and widths of reflective trims that can be selected for attachment to your garments. Ours are divided into four categories: FR – Industrial Wash, FR – Home Wash, Industrial Wash, and Home Wash. Many stripe styles are available in one or more of these categories; however, prices will vary depending on the trim and locations selected. Please be sure to select the correct trim.
